GENERAL CONTRACTING SERVICES

osgood-o'neil salon

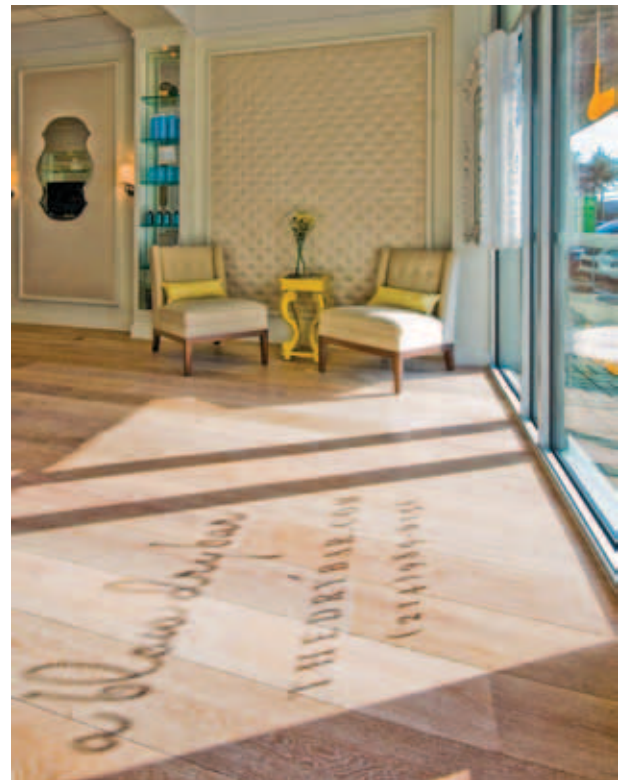

Winner of the distinguished 2008 NAHA award for design

“All work performed by Jim Benge and his sub-contractors was completed in both a timely and accurate manner, and Jim and his foreman were on site daily making sure that all work was completed as specified by the blueprints. Jim is still extremely responsive to any requests, and he has taken care of any needs we have had since completion of the project, no matter how small.

After working closely with Jim and his staff, I have absolutely no hesitation in recommending Benge General Contracting to any salon owner looking to begin a new unit or remodel an existing unit.”

Lauren Schlabs
Director of Operations, Osgood-O'Neil Salon

Jim and his entire team raise the bar for general contracting standards. The thoroughness, attention to detail, quality of work and continual open communication ensures that the project will be a success.
